Through the elegant shape to interpret the intelligent thinking and attitude, the designer took the time to use the multi-core three-dimensional surface. The multi-sided texture reflects the wise life attitude in the details, the rounded philosophy of life, and the extension from the front to the side reflects The overall sense of spatial transformation is also the balance of wisdom.

Inspired by Canton Tower, the design of Canton Tower can be traced back to the Dutch kitchen table 15 years ago. Zhimu Youpin designer returned to the original with Canton Tower as the prototype, again quoted in the office furniture system, sketched Canton Tower with simple lines, the original intention of the design is to be able to touch the starry sky, highly innovative and tension furniture design to obtain a strong artistic beauty .
